"Teach a man to fish and all that rot" - Unknown

Testimonials

"I am very grateful for the quality of our meeting today. It was intense and I feel strongly how so much has been released in just one hour... I could feel my thorax expanding, welcoming air and joy. I spent the next hour sleeping as a baby, and woke up smiling, absolutely confident about my complete healing process being triggered. Thanks a lot Diane for your ability to use the Body Code so precisely and quickly. This is an amazing help in any physical or emotional healing process."

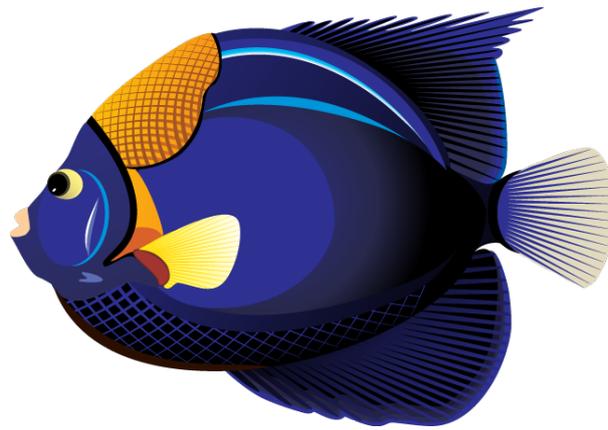

Nina V

"I have been in agony for a week. Now, after one treatment, there is no pain, previously there was a burning sensation, just like it was on fire. That has completely stopped!"

Martha E.

Ever Thought You could be a Body Code Healer?

Some of you have expressed an interest in doing the work I do, skilled at Body Code and Emotion Code. I am honoured that have been granted the position of affiliate from the Discover Healing Company, the owners of the Body Code and Emotion Code. This allows me to sell the workshops, events, software, certification programme, as well as supplements to those interested. By clicking on the following link it takes you to the page that allows you to shop.

https://discoverhealing.com/shop/ref/sfkyk/?campaign=MENTOR_OFFER_WITH_PURCHASE

Full disclosure, there is a nominal percentage I get from this. However, I would like to do more than just sell the system. I would like to offer to those who are interested in learning to have access to me as a kind of guide or mentor as you learn. It is not necessary to have this. I did not have this. However, I did notice that the online learning can be wrought with questions and, for those of you who know me, I am constantly asking questions, researching for answers and sending emails to my

If you would like to submit a testimonial, written or via video, please contact me. Spreading the word of healing and fighting the stereotypes of woo-woo against big Pharma is a noble cause. We now have Quantum Theory that validates this work and proves what ancient cultures have known all along - that we are all one, connected and affecting eachother.

clients to think in different and out of the box ways. This was no different.

The method used by the online training is that you fill out a form, ask your question and then get an answer in a few days or week. If it is a difficult question, it gets passed to Josh Nelson, and that can take more time. He is Head of Education, and Dr. Nelson's son, so he might have to ask Dr. Nelson. I found sometimes the process took weeks.

Now, you might have questions that require this process, too. However, I have been doing this for a while now so I do know some of the vague areas, pitfalls, and not so clear processes. I can respond to an email, text or booked call more quickly. I also love the process of learning so it fits my sensibilities.

One thing is very important. They don't tell you this on the Body Code website. In fact, they tell you anyone can learn. This is not always the case. I have known people who have great difficulty muscle testing . You must know how to muscle test before you can apply the BC/EC process. Do not buy anything until you get this resolved.

Muscle testing is like a lie detector test. It will honestly answer any yes/no question - even surprising the conscious mind with its answers. Muscle testing provides the means for accessing the higher self, the subconscious, the record keeper of your life (and lives!). It is a simple process that is the basis of communication in the embryonic stages. It creates a union with who you are and the higher self, which is the proper definition of Yoga. Yoga is not brightly coloured spandex. It is a spiritual connection with all that was, is and will be.

So, if you are interested in learning more, let me know.

Kindest regards,

Diane Pfister
